

# INTERDISCIPLINARY ENGINEERING

## ABOUT OUR PROGRAM

The core vision of the program's design is to provide a customizable degree for students, so they may optimize their opportunities to enter the workforce, including emergent entrepreneurial businesses. The curriculum aims to develop students into engineering leaders who utilize a systems-perspective to collaborate across disciplines and design innovative, human-centered solutions to local, national, and global challenges.

## FOCUSED PLANS OF STUDY

Students can choose from courses in pre-determined focused plans of study below:

- ENTERTAINMENT ENGINEERING
- OCEAN ENGINEERING
- INDUSTRIAL ENGINEERING
- MATERIALS
- HEATING, VENTILATION, AND AIR CONDITIONING
- AEROSPACE
- ROBOTICS
- *OR CREATE YOUR OWN ENGINEERING FOCUSED PLAN OF STUDY!*
